JOB ANNOUNCEMENT

Information Technology Administrator

Salary Range:	Range 69 (\$8,756 - \$11,736 per month) plus benefits
FLSA Classification:	Non Exempt
Bargaining Unit:	Non-Management Employee Association

The Great Basin Unified Air Pollution Control District is seeking an Information Technology Administrator to lead and oversee all aspects of the District's Information Technology (IT) Division. The District's mission is to protect public health and the environment from the harmful effects of air pollution in Alpine, Mono, and Inyo Counties. The position is in-person based out of the District's office in Bishop, California.

This position is responsible for planning, organizing, and maintaining secure and efficient IT systems to support the agency's operations and activities. This work includes, but is not limited to, network and systems administration, security management, communications, programming oversight, web infrastructure, and supporting data management. The position provides strategic guidance on technology solutions, manages IT assets and budgeting, and ensures the reliability, security, and availability of District information systems.

The successful candidate will be an experienced IT professional skilled in working with enterprise IT systems, managing complex projects, and supervising technical staff. Successful performance requires the ability to communicate technical concepts to varied audiences, establish positive working relationships, and professionally represent the District internally and externally. Work duties include office work as well as occasional fieldwork.

For a complete job description, including required qualifications, and instructions on how to apply, please visit www.gbuapcd.org/employment or <https://gbuapcd.bamboohr.com/careers>.

Applications must be received by Sunday, January 4, 2026.
