Instructions for Authority to Construct/Permit to Operate Application

All applicable sections should be completed as fully as possible and returned to the Great Basin Unified APCD according to accompanying instructions. Any additional materials, which will aid in describing your operations, should accompany completed sections, such as stack test results, modeling results, process diagrams, and control equipment or mitigation descriptions. A diagram or plot plans of your facility should be included showing the location of and labeling major buildings, stacks and other points of emissions, operation sections, property lines, nearby highways and streets, and intersections as required.

Any information, except emission estimates designated as confidential by the owner, will be treated as such and will not be released outside the Great Basin Unified APCD, California Air Resources Board, and Environmental Protection Agency. Your cooperation in the improvement of the Great Basin Air Basin is appreciated.
